Term 2007 – 2009 Candidate Application/Nomination Form

IIS office	Chief Financial Officer	
Name	Scott W. Landvatter	
Date of Birth	March 1, 1956	
Affiliation	IsoSciences, LLC	
Position	CEO	
E-mail address and Phone	isosciencesllc@comcast.net 1-610-902-8777	
Former IIS offices	Northeast US Chapter: President (1993) IIS (International): Chief Financial Officer (2004-current)	
Statement / Commitment:	<p>My main focus as Chief Financial Officer has been to get all IIS financial matters up-to-date and readily accessible by using specialized accounting software (QuickBooks Pro). This has been accomplished and has allowed me to work closely with our professional accountants who also use the same software. All BoT members are up-to-date on our financial status and are sent Excel spreadsheets with all our financial details prior to any BoT teleconferences. These balance sheets and profit/loss statements have also been posted on the IIS website for all the members to see. Furthermore, the level of detail needed to access our financial health is now available since every income source, and most importantly every expenditure, are categorized. The end result is that detailed financial information is consistently available for the first time.</p>	
Additional Remarks	I have had the opportunity to serve the IIS in a	

		<p>number of capacities over many years including organizing chapter meetings (Northeast chapter), organizing special symposia (Philadelphia) and session chairman (Boston). However, I think I have best served the society in my current capacity as CFO and I will continue to work closely with our accountants, pay invoices in a timely manner and keep detailed records of all our expenditures.</p>
